### **Nolan D'Souza**

Nolan is a health system strategist and innovation expert with tenures at all levels of government in Canada. He also has vast achievements in economic development having designed and launch the national type 2 diabetes prevention challenge for the Public Health Agency of Canada and focusing on job creation and sustainability of new dual-use technologies for Invest Ottawa. He is a genetic counsellor and understands the benefit of having access to preventative health services and supports, having provided care to patients in prenatal, neurogenetics, cancer, pediatrics, and metabolic genetics clinics. He previously served as vice-chair of WellFort CHC throughout the pandemic and during health system reform via the Ontario Health Teams. He takes pride in servant leadership and believes in equitable healthcare for all and supports a whole person approach to healthcare that respects cultural knowledge and traditions.

### **Sarah Radovan**

Sarah Radovan is a senior federal public servant with nearly 30 years of experience in environmental policy, regulatory affairs, and government relations, currently serving as Director of Regulatory Innovation and Management Systems at Environment and Climate Change Canada. A chemical engineer by training, Sarah brings expertise in strategic policy development, organizational change management, budget and resource management in public-sector environments, and engaging with senior officials and elected representatives across multiple levels of government.

Sarah's volunteer experience includes nonprofit board governance, co-founding Sustainable Ottawa — a cooperative that secured over \$300K in federal grants to support 300+ residential solar installations across Ottawa — and championing various employee diversity, equity and inclusion committees in the workplace.
